

USER'S MANUAL
INFLATABLE SWIMMING POOL

IMPORTANT SAFETY RULES

Read and follow all safety information and instructions. Keep the user guide for future reference. Before using, inflate the product and leave it for 10 minutes to check whether the product leak. Do not use a damaged or leaking product.

SEP UP THE POOL

1. Find a flat, level surface that is free and clear of the stones, branches, or other sharp objects.
2. Move the product (in its package) to the selected site inflating.
3. Slowly unfold the product and inspect for rips, tears, or punctures. Do not use if the product is damaged.
4. Lay the pool out as evenly as possible. Close all drain and exhaust valves caps.
5. Inflate the bottom air chamber first with an air pump designed specifically for inflatable products and then the upper chambers in sequence.
6. Pump the air into the product until the surface is firm to touch. Do not over-inflate or use high-pressure air compressor since it may result in seam leak.
7. Close and recess all the inflation valves cap(s) securely by pushing down firmly on it.

Unplug the air outlet
on the side

Unplug the air outlet on
the bottom

Inflate the chambers of
the pool one by one

Close the air outlet

WARNING

- DO NOT use under the influence of alcohol or drugs.
- NOT to be used by children under 6 years of age. This product should never be used by children except under adult supervision.
- This is not a personal flotation device.
- DO NOT tow this product.
- This product is to be used only on water. DO NOT use it in shallow water. Use only at safe distance from shore, docks, pilings, rocks, boat, etc.
- DO NOT use or drag across any land surfaces including driveways, yards, gravel, boat launch sites, beaches, or shoreline areas.
- DO NOT use this product in swimming pools.
- Users of this product must use caution and common sense at all times.
- Diving or bouncing into the water from this product is not recommended due to the possibility of injury or death occurring from such activities and unforeseen underwater hazards such as tree stumps, rocks, and other dangerous hidden debris found in all lakes, rivers, and waterways. Failure to adhere to the above warnings and safety rules increases the possibilities of an accident which could cause injury or death.
- Use hygienic and clean water. Do not fill with river water, fire water, or water not up to health standard.
- Clean the pool regularly to avoid the building of bacteria. Do not store it in a dark, humid environment.
- Do not move the product once filled with water. It may collapse because of the water pressure.

<p>Prevent drowning</p>  <p>1. Children, especially toddlers are at high risk of drowning 2. Closely watch children who are in or near this inflatable pool 3. No glass or sharp mental in the inflatable pool</p>	<p>No diving</p>  <p>Diving or jumping may result in broken neck, paralysis, permanent injury or death.</p>

REPAIRS

- First, locate the leak: Close all inflation valve caps after inflation. Spray the surface with soapy water and fold the pool by half. Press your knees on it, the soapy water will bubble out from the surface of the leak. Mark the leak.
- Second, repair small leak: After the pool is dry and fully deflated, cut a piece of repair patch large enough to cover the damaged area. Place the patch on top of the damaged area and press down firmly.
- Or, to repair large damage & leak: Coat a thick layer of gel on the damaged area and attach a repair patch. Press it down firmly for at least 1 minute. Leave the gel there for 4 hours until it's fully dry.

This manual addresses some common risks but not all danger of water recreation. Always be cautious.

SEP UP THE POOL

- 1 X Inflatable Pool
- 1 X User Manual
- 2 X Repair Patch

FILLING THE POOL WITH WATER

Fill the pool slowly. Do not exceed the middle ring level to avoid water overflow and guarantee the maximum safety.

Made in China
