USER'S MANUAL

Ionic Air Purifier

EP20412

OPERATING YOUR IONIZER

- To ensure the best air circulation, the Ionizer should be placed at least 1 ft. away from the wall or large objects. The unit should be placed on a table or shelf.
- Ensure that the Collection Grid is inserted properly before connecting the unit.
- Press down the Tab with your finger to open, then pull out the Collection Grid from the top. (See illustration 1 and 2.) To replace the Grid, slide the Collection Grid into the ionizer (illustration 2) and push the top of the Collection Grid to lock it in to place (illustration 1). **KEEP FINGERS SAFELY AWAY FROM SHARP SURFACES.**
- Connect the power cord in the back of the unit, then plug the adapter (included) into an electric outlet. Note: AC Adapter Power Supply: 120V, output power: 12V. The Ionizer is now ready for operation.
- While in whisper mode the unit operates using negative ions that traps airborne contaminants, pulls in polluted air and releases healthy and clean air.

Turbo Operation is for eliminating strong odors fast. It uses the same technology as Whisper mode, in addition to the built-in fan to increase air circulation and making the purifier more effective.

Specification:

Size: 10*7*30cm

Power: appor.4W

Influence Period: 300 Squar Feet

Ionic Air Purifier

Ionic air purifier is a specially designed compact unit with the power of a ionizer more than twice its size. It operates using negative ions that pull in polluted air, trap contaminants, and release clean, healthy air. This ionizer is energy efficient, it only consumes up to 4 watts of power and effectively cover up to 300 square feet. There are no expensive filters to be replaced, the collection grid filters the air by trapping airborne particles, pollutants and allergens that are in the air. Compact design is perfect for desk or shelf.

CLEANING

Note: The Collection Grid needs to be cleaned approximately once a month, or more frequently depending on the area where the unit is placed.

- Rotate the dial to the OFF position and then unplug the unit.
- Press down the Tab with your finger to open, then pull out the Collection Grid from the top. (See illustration 1 and 2.)
- Using a damp cloth to wipe off the dust. (See illustration 3.) **KEEP FINGERS SAFELY AWAY FROM ALL SHARP SURFACES.** Do not use cleaning solution on the cloth, **ONLY USE WATER.** Make sure that the Collection Grid is dry before replacing.
- Replace the Grid, slide the Collection Grid into the ionizer (illustration 2) and push the top of the Collection Grid to lock it in to place (illustration 1).
- Plug the ionizer into an electrical outlet. Turn the unit on by rotating the dial to the Whisper or Turbo positions. See illustration 2.

ILLUSTRATION 3

!! WARNING !!

• INDOOR USE ONLY. • KEEP AWAY FROM WATER. • DO NOT PLACE IONIZER IN BATHROOM OR ANY OTHER AREA WHERE IT MAY COME IN DIRECT CONTACT WITH WATER, DUE TO THE RISK OF ELECTRIC SHOCK. • DO NOT TAMPER WITH OR MODIFY THE INTERNAL COMPONENTS OF THIS UNIT. • FOR REPAIRS CONTACT A QUALIFIED REPAIR SPECIALIST.
