# Before You Start

- ⦿ Please read all instructions carefully.
- ⦿ Retain instructions for future reference.
- ⦿ Seperate and count all parts and hardware.
- ⦿ Read through each step carefully and follow the proper order.
- ⦿ We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- ⦿ Always place the product on a flat, steady and stable surface.
- ⦿ Keep all small parts and packaging materials for this product away from babies and children as they potentially pose a serious choking hazard.

### instrutions for the base:

- 1) Unbolt vertical pole from existing metal cross base
- 2) Slide new water weight over pole with top first.
- 3) Bolt on your new metal cross base to bottom of pole.
- 4) Stand up umbrella and fill with water or sand.

Sand is heavier than water so if in windy area we recommend using sand. Also if you have a cold climate always use sand as the water will freeze and can damage the housing.

### WARNINGS:

Never use water fill if your climate goes below freezing. Don't stand or jump on base.

In high winds we recommend taking umbrella down to protect umbrella and avoid it tipping over.

When filled with water or sand base is heavy, avoid moving and dropping.

**WARNING:** Connected poles are not included in the product.
