Before You Start

- ⦿ Please read all instructions carefully.
- ⦿ Retain instructions for future reference.
- ⦿ Separate and count all parts and hardware.
- ⦿ Read through each step carefully and follow the proper order.
- ⦿ We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- ⦿ Always place the product on a flat, steady and stable surface.
- ⦿ Keep all small parts and packaging materials for this product away from babies and children as they potentially pose a serious choking hazard.

Five product advantages to easily meet your hygiene needs

1. Rugged And Reliable: Designed according to the size of an adult, it can bear 220LBS, with strong structure and reliable strength, both sides of the interlocking components are load-bearing design, ensuring that the two tanks are firmly interlocked together.
2. Repeated Use: The water tank has a capacity of about 12 liters and can provide flushing up to 30 times. It can also be replenished with water at any time without external piping required. The manual air pump can be used normally for 100,000 times.
3. Super Easy To Clean Up: Separate portable structure is easy to clean. Rinsing with water will not reflow. The 10-liter one can be used for about one day by adults, and the 20-liter one can be used for 2-3 days by adults.
4. No Leakage: Both reservoirs are integrated molding integrally without any seams and will never leak. The sliding valve is double-layer sealed to prevent dirt leakage and odor emission.
5. Easy To Carry: Suitable for a wide range of compact spaces. The completely independent storage design doesn't need any external devices.
