## USER'S MANUAL Bed Rails for Toddlers BS10003/BS10004/BS10005 /BS10006/BS10007/BS10008

THIS INSTRUCTION BOOKLET CONTAINS **IMPORTANT** SAFETY INFORMATION, PLEASE READ AND KEEP FOR FUTURE REFERENCE.

## Before You Start

Please read all instructions carefully and keep it for future reference.

### General Warnings:

- ⚠ Danger! Keep all small parts and packaging materials for this product away from babies and children, otherwise they may pose a choking hazard.
- ⚠ The product must be installed and used under the supervision of an adult.
- ⚠ Read through each step carefully and follow the proper order.
- ⚠ Remove all Packaging, separate and count all parts and hardware before installation.
- ⚠ Please ensure that all parts are correctly installed, incorrect installation can lead to a danger.
- ⚠ We recommend that, where possible, all items are assembled near the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- ⚠ Ensure a secure surface during installation, and place the product always on a flat, steady and stable surface.

### Warning

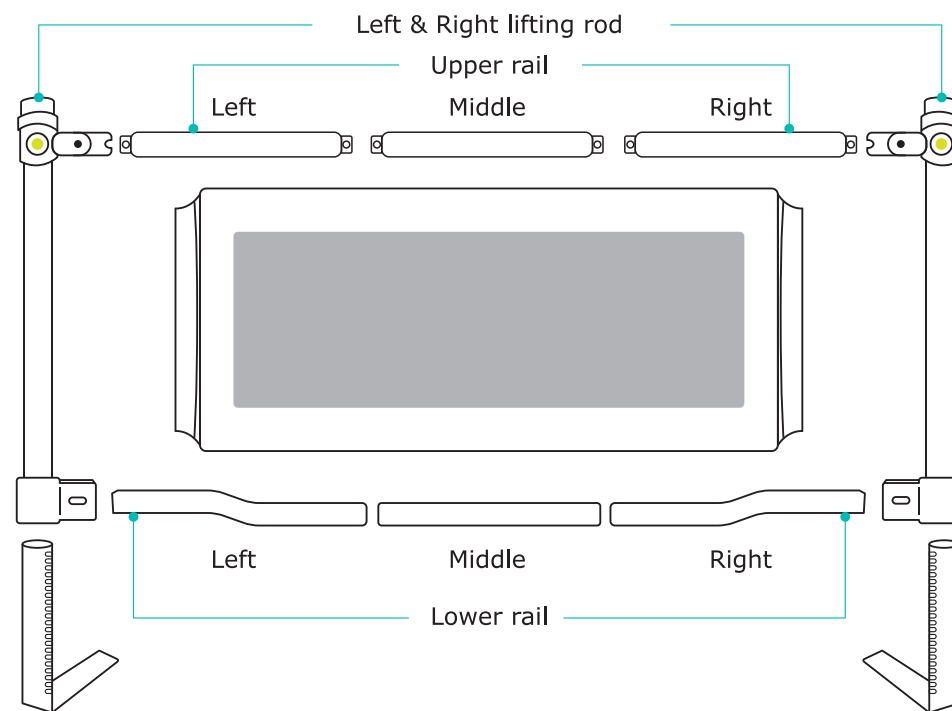

1. Users and guardians should read this manual carefully before use and keep it for future reference. If it is not used in accordance with this manual, it may affect the safety of children.
2. To prevent accidents, please strictly follow the instructions.
3. Improper use or external impact may cause damage to the product.
4. Do not hit the product with sharp or hard objects.
5. Incorrect installation will cause safety hazards.
6. Do not pull it up or down roughly after installation.
7. After the installation is complete, please check in time to ensure that the installation is correct and the function is normal.
8. If any parts are damaged or missing, please stop using.
9. Keep plastic covers away from children to avoid suffocation.
10. Do not leave hard objects, ropes, curtain ropes and other items that may pose a risk of strangulation/suffocation on the bed or hang on the bed rail.
11. This product is made for baby safety, but it cannot completely replace adult supervision.
12. This product is only a safety aid, basically suitable for common bed on the market, but it is not fully suitable for all types of bed. It is forbidden to use it when the bed rail cannot match the bed or mattress.

13. It is the parent's responsibility to ensure that the bed rail is close to the mattress and must be fixed before use.
14. This product is not a toy, please do not allow baby to climb it as a railing or ladder.
15. This product is not suitable for bunk beds, waterbeds, air mattresses and cribs.
16. This product is suitable for infants and kids from 3 months to 6 years old, but it does not have the function of insulating all dangers or accidents.
17. Keep this product away from fire.

## Repair and Maintenance

1. Regularly check screws, rivets and other fasteners to ensure their firmness and safety, and replace any defective parts.
2. Regularly check whether the bed rail locking device is working properly
3. Please do not use the bed rail and contact us if any part of the product is broken.
4. Be careful not to tear the fabric when moving the bed rail.
5. Low-viscosity oils or lubricants can be used on moving parts.
6. Do not use machine cleaning.
7. Clean with sponge, neutral detergent and warm water.

## Parts

## Note:

The illustrations used in this manual are used to illustrate the operation method and product structure. There are slight differences between the actual product and the picture. Please refer to the actual product. In order to improve the quality of this product, we may change the structure and appearance of the product without notice.

## Assembly Instruction

**For sizes 1.2m(47") and 1.5m(59") , use two rails;**

**For sizes over 1.8m(71") , use three rails.**

**Do not throw away the white rail sleeve of the upper rails. It must be installed and used with the product.**

Upper rail

Lower rail

Connect the left, middle and right rails in order until the button pops out from the slot.

Connect the left & right lifting rod with the left & right L-shaped base in the direction as the arrow.

Pass the upper and lower rails through the mesh panel. When installing the mesh panel, the side with zipper and warning faces outwards.

Insert the rail into the slot until the button protrudes from the slot, and the zipper or printed side faces outwards.

Pass the side part of the mesh panel through the lifting rod and pull up the zipper. Check the firmness of the guardrail. If there is no obvious wobble, the assembly is complete.

## Fixing Method (with screws)

Note: Boards need to be purchased separately.

### **Embedded Bed**

Clamp the pole between the mattress and the bed board

fixed on  
the bedplate

### **Platform Bed**

Fix it to the bed board with screw

fixed on  
the board

### **Slatted Bed**

Padded with wooden board, and then fix it to the wooden board with screw

### **Lifting Adjustment**

First turn the adjustment button clockwise, and then press it to adjust the vertical elevation of the bed guardrail on both sides or on one side.

### **Gear Adjustment**

There are 24 gears on the bottom of the bed guardrail. Select the required height and fix it with screws.

If multiple bed guardrails are installed in combination, there will be gaps between adjacent bed guardrails. Please tighten the two bed guardrails and fix them with L-shaped buckles. After assembling, if the fence shakes a lot, you can fix it to the bed with screws.

If there is a obvious gap between the guardrail and the mattress, it is evidence that your installation is not in place or the mattress is not thick enough.

Parents are responsible for taking measures to ensure safety in accordance with the instructions, otherwise it may cause serious consequences such as choking hazard.
