Remark: Need to drill a whole on the wall. It is up to the consumer whether this step is need to be installed or not.

USE INSTRUCTION

When the child's arm is naturally drooping, it can be placed on the table. It says that the height of the table is just suitable.

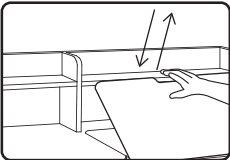

How to adjust the height

Insert the hand crank into the round hole on the right side of the desk, Turn the hand crank clockwise to lower the desktop, and counter-clockwise to raise the desktop. Choose an appropriate scale on the legs of the table according to the height of the child.

How to Clean the table face

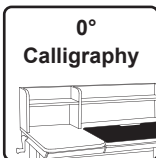

If there are traces of watercolor pens or ball pens on the desktop, you can clean them up with a damp rag. If there are more stubborn stains on the table, you can use toothpaste or essential balm to deal with then use damp rag to clean up.

How to adjust the table angle

Hold the groove of the tabletop with one hand, you can lift or press to adjust the angle (0-60) of the tabletop.

Use of the different angle
