

Pet pee pad product manual

product feature:

Disposable pet urine pad is suitable for dogs, cats, hamsters and other pets. After use, it can effectively protect the hygiene of the house and reduce the smell of pet excrement. At the same time, it is highly absorbent and leakproof, and will not let the pet carry the pollution of excrement.

product mix

Product composition: The first layer is non-woven fabric, the bottom layer is PE film, the inner core is two layers of toilet paper, the middle part of toilet paper is fluff pulp and water absorbent polymer (SAP). 1, soft and dry cotton surface: made of soft non-woven fabric, strong permeability, fast penetration. 2, super absorber: the selection of long fiber fluff pulp made of rapid absorption, effectively prevent side leakage. 3, mesh diversion design: can quickly dredger liquid diffusion, and make full use of the absorber. 4, pe film leak-proof layer to prevent water penetration.
