Before You Start

Please read all instructions carefully and keep it for future reference.

Warnings:

Attention! Use it with protective equipment.

Attention! Not use it in the traffic.

Attention! Applicable Age: 12-50 Months.

General Warnings:

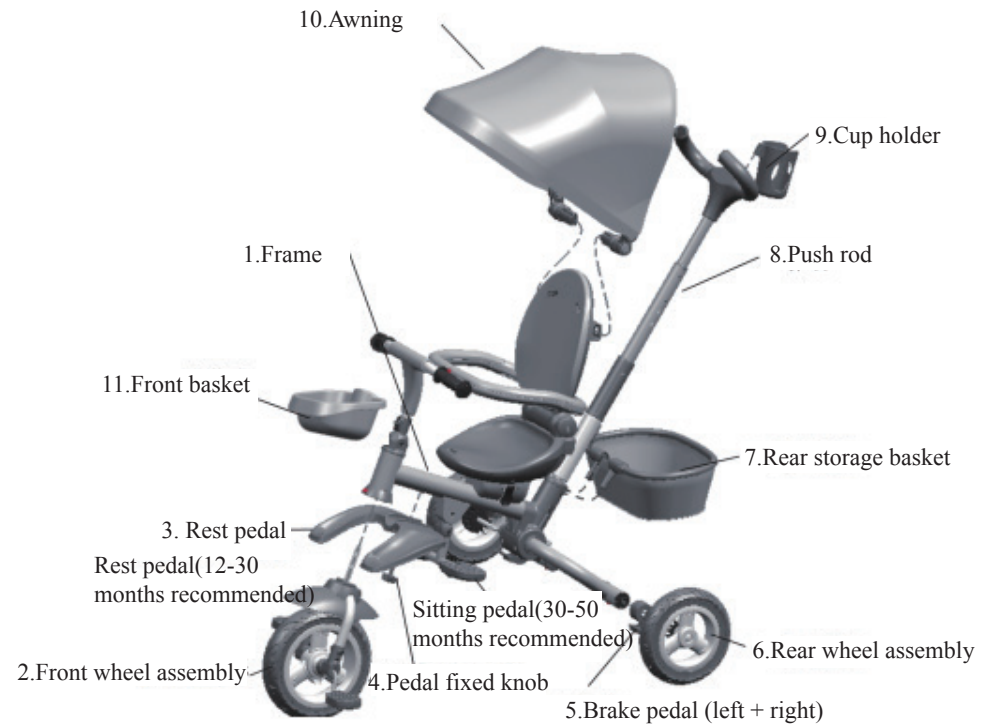

- ⚠ The product must be installed and used under the supervision of an adult.
- ⚠ Read through each step carefully and follow the proper order.
- ⚠ Remove all packaging, separate and count all parts and hardware.
- ⚠ Please ensure that all parts are correctly installed, incorrect installation can lead to a danger.
- ⚠ We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- ⚠ Ensure a secure surface during construction, and place the product always on a flat, steady and stable surface.
- ⚠ Please use the product carefully, as the product requires great skill, avoid accidents by the user or others, by fall or collision.
- ⚠ Please wear suitable protective equipment during use, e.g. protective helmet, gloves, knee pads, elbow pads etc.

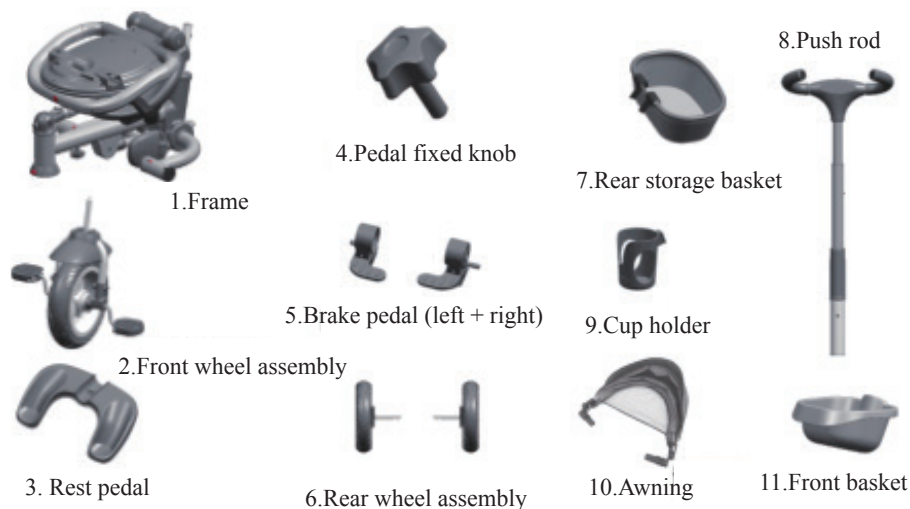

Applicable Age: 12-50 Months

Executive Standard: GB 14747-2006

Warning: This manual contains important information and must be properly preserved. Non-vehicle, please do not drive on the road. Use it under the care of the guardian. Educate children about safety before using.

Exploded Drawing And Components List

Assembly Diagram

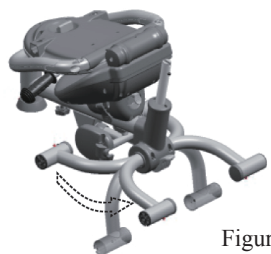

Figure 1

Figure 2

Figure 3

Figure 4

Figure 5

Figure 6

1. Unfold the rear wheel frame

Open the rear wheel frame in the direction of the arrow in Figure 1. Take care to ensure that the rear wheel frame is completely caught in the folding handle.

2. Install the front and rear wheel

As shown in Figure 2, insert the brake pedal 5 into the horizontal tube of the rear wheel frame, and the rear wheel assembly 6 is inserted into the corresponding hole of the brake pedal 5 to complete the rear wheel installation (When installing the brake pedal, it is necessary to distinguish between left and right. When inserting, pay attention to align the notch position inside the brake pedal with the notch position on the frame).

Insert the front wheel assembly 2 into the hole under the head tube of the frame 1. If it needs to be disassembled, press the quick release button to remove the front wheel assembly.

3. Install the rest pedal

Insert the rest pedal 3 under the frame 1, align the hole on the pedal with the hole under the frame, and tighten with the pedal fixing knob 4.

4. Unfold the backrest, armrest and handlebar

Gently pinch the folding handle on the back of the frame 1 to open the seat and adjust it to the proper position to loosen the folding handle. Pull the knob on the head tube to pull up the handlebar; just lower the armrest to the free state.

5. Install the awning

As shown in Figure 4, insert the awning sockets on both sides to the corresponding sockets on both sides of the backrest to complete the awning installation. To disassemble, hold down the buttons on both sides and pull out.

6. Install the rear push rod

As shown in Figure 5, snap the push rod 8 into the short handle behind the frame 1 to eject the spring, which means that it is inserted into place, and then snap the cup holder 9 into the slot on the push rod.

7. Install the rear storage basket

As shown in Figure 6, insert the rear basket 7 along the dotted line to the end.

Instructions for use

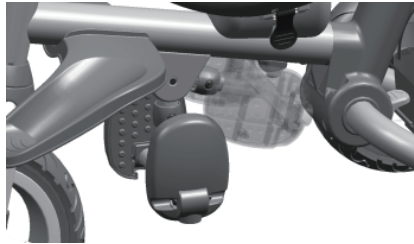

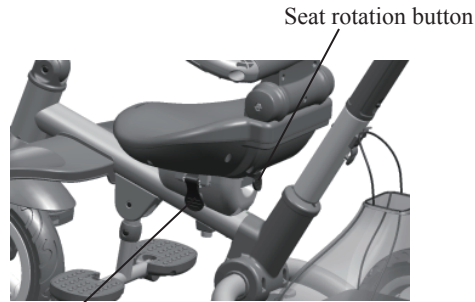

Figure 7

Seat adjustment switch
(Front and rear)

Figure 8

1. Unfold the sitting pedal

There is a sitting pedal under the frame 1 (Figure 7). Pinch the pull ring on the round tube and pull down to unfold the pedal from the folded state, and then unfold the pedal tread on both sides. To close the pedal, simply repeat the above steps in reverse.

2. Seat forward and backward adjustment

(Figure 8) The seat adjustment switch is set on the left side under the seat. You can adjust the seat back and forth by turning the switch on, and press the switch when the position is appropriate.

3. Seat rotation adjustment

(Figure 8) There is a seat rotation button at the rear of the seat base. You can adjust the direction of the seat by pressing and holding the button. There are four optional directions: front, back, left, and right.

Figure 9

Folding for travel

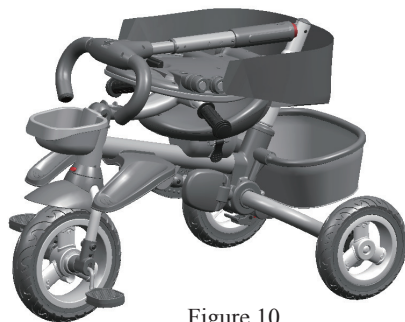

Figure 10

Folding for storage

4. Backrest angle adjustment

Adjust the angle of the backrest by pinching the folding handle behind the backrest.

5. Vehicle folding function

a. Folding for travel

Close the awning, flip up the armrests, fold the handlebars to the saddle position and the backrest to the horizontal position, retract the push rod to the lowest position, press the spring on the push rod and pull up the sleeve. The push rod is turned forward to the state of Figure 9, and the awning is folded back to the state of Figure 9, which can be put into the trunk of most models without disassembling parts.

b. Folding for storage

On the basis of the travel folding steps, then gather the rest pedal, remove the front wheel assembly, fold the rear wheel assembly, and remove the rear storage basket to make the whole vehicle smaller and convenient for home storage. (Pay attention to the preservation of disassembled parts)

Care And Maintenance

1. In order to avoid accidental injury to your baby, please check and maintain the car frequently.

2. When cleaning the car body, wipe it with a dry cotton cloth.

3. For the rotating parts of the product, such as axles, handlebar rotating shafts, etc., the lubricants should be added regularly to increase the service life of the product.

4. Check regularly for loose screws and damaged parts. If necessary, repair and replace damaged parts in time.

5. When disassembling, please follow the instructions carefully to avoid unnecessary damage.

Warning:

1. Please read the manual carefully before installation and use. Keep it properly for future reference. It will tell you the correct installation procedures and operation methods to avoid damage to this product or your child due to incorrect operation methods.
2. This product may have potential sharp edges or sharp points or small parts before assembly, so it must be installed and checked by an adult before use.
3. This vehicle should be used under adult supervision to reduce the risk of injury. Do not use on highways, close to motor vehicles, near or on slopes, steps, swimming pools or other bodies of water. Wear shoes, and no more than one rider. Keep away from fire.
4. Do not allow children under 12 months to operate this tricycle.
5. When using this vehicle for the first time, please teach children how to operate it.
6. Before using the car, wear protective equipment and check whether the car is damaged or not, and whether the parts are connected well to avoid accidents.
7. While this vehicle is driving, please do not let other children approach, and the caregiver must not leave.
8. Do not let children play with the packaging bag, there is a danger of suffocation.
9. The maximum load capacity of this product is 25 kg, only one baby can ride at a time, and other babies are strictly prohibited from riding at the same time.
