

Balance Bike

User Manual

ITEM : TY571745

Thank you for choosing our balance car.

Before using the product, please read this user manual carefully and keep it for future reference.

Balance Bike is the perfect tool to train kids how to steer and maintain balance. It could help build the necessary cycling skills for a traditional pedal bike in a simple, safe and effective way. Besides, it is super fun to ride with this balance bike. We believe that you would have a good time with this product.

Ride Safely!

- ▶ It is designed for kids from 3-6 years old.
- ▶ Wear a safety helmet, safety vest, and appropriate footwear while riding.
- ▶ Ride only in sufficient daylight under the supervision of at least one adult.
- ▶ The product must only be used by one child at a time.
- ▶ Ride in a safe environment away from swimming pools, steep hills and areas with traffic.
- ▶ The child must be able to control their speed at all times. In order to avoid accidents, practice braking with feet and teach the child how to safely handle the bike.
- ▶ Before a child uses Balance Bike, always make sure that the bike is in fully functional riding condition and that no parts are damaged. Regularly check and tighten all nuts and bolts.
- ▶ This product contains small parts that should be kept away from children until fitted securely to the bike.

Assembling Instructions

Warning : Assembled by adult!

A. Install Handle Bars

1. Slide the binder bolt into the head tube (do not tighten it at this point).
2. Insert the handle bar into a protection cover.
3. Hold the protection cover, then insert handle bars into the head tube. Use the wrench to tighten the binder bolt.

B. Install Seat

1. Insert the seat into a protection cover.
